

Flashlamps for Warning Beacons

PerkinElmer Optoelectronics offers the largest assortment of different lamp shapes for meeting the needs of diverse products within the warning beacon market. We offer many lamp forms, including linear lamps, U-shape, circular, helical and double helix forms. Complete plug-in solutions – lamps, sockets, and integrated trigger coils – are also available and can be customized to meet any customer needs.

PerkinElmer's comprehensive concept includes all standard materials, from low-cost hard glass to several quartz options. Special long-life electrodes help to drastically reduce service costs, while colored lamps allow one cover for all different colors in use. This creates additional savings in stock and manufacturing costs.

Features

- ▶ Wide variety of lamp designs (different shapes, colors and sizes)
- ▶ Several envelope materials for customer-specific spectral and power requirements
- ▶ Customization of lamps with trigger electrodes, end caps, flexible or rigid wires, sockets, and sockets with integrated trigger coils
- ▶ PerkinElmer patented Long Life electrodes

Applications

- ▶ Lamps for emergency vehicles (police cars, fire trucks etc.)
- ▶ Tower strobes
- ▶ Warning beacons on construction sites
- ▶ Airport runways
- ▶ Aircraft landing lights
- ▶ Curing systems
- ▶ Speed cameras
- ▶ Emergency exits

* Borosilicate glass B1 (standard glass): Automatic processing ability. Many tube diameters available.
 Borosilicate glass B2: Withstands approx. 30% more power than B1. Requires manual processing.
 Quartz glass Q1: UV transparent.
 Quartz glass Q2: Reduced generation of ozone.
 ** Anode voltage doubling trigger

Trigger Transformer Recommendations

Optimal flash module performance and reliability is essential. With that in mind, PerkinElmer Optoelectronics designs and manufactures trigger coils and transformers for a wide range of specifications – all based on our customers' specific flash applications. Please refer to our Trigger Transformer datasheet to learn which trigger transformer matches your specific lamp and application.

Your Partner of Choice

With a broad customer base in all major markets, built on ninety years of solid trust and cooperation with our customers, PerkinElmer is recognized as a reliable partner that delivers high quantity, customized, and superior “one-stop” solutions. Our products – from lamps to trigger transformers, reflectors, power supplies, and more – meet the highest qualitative and environmental standards. Our worldwide Centers of Excellence along with our Customer and Technical Support teams always work with you to find the best solutions for your specific needs.

PerkinElmer Optoelectronics

PerkinElmer Optoelectronics is a global technology leader providing market-driven, integrated solutions for a wide range of applications, which leverage our lighting, sensors, and imaging expertise. Our technologies, services and support are fueling the medical, genomic and digital revolutions by enhancing our customers’ productivity, optimizing performance, and accelerating time-to-market.

So contact us and put PerkinElmer’s expertise to work in your demanding lighting applications. Let us show you how our innovations will help you deliver the perfect product.
